

fiber. where?

SCHOHARIE COUNTY AND BEYOND.

MIDTEL has been awarded multiple grants associated with the New NY Broadband Program. The purpose of this program is to bring high speed internet service to underserved and unserved areas in NYS. The combined **MIDTEL** grant projects represent over \$18,000,000 of State Grant money and **MIDTEL** private investment. In addition to our existing 100+ miles of fiber optic lines in Schoharie County, **MIDTEL** has constructed over 600 miles of new fiber, passing over 3500 premises through portions of the towns of Berne, Blenheim, Broome, Carlisle, Cobleskill, Conesville, Fulton, Gilboa, Jefferson, Middleburgh, Rensselaerville, Richmondville, Schoharie, Summit, Westerlo and Wright.

For more information,
or to see if your location is
in one of our fiber services
areas, please visit MIDTEL.com
or call 518.827.5211.

the evolution. OF OUR TECHNOLOGY. OF OUR SERVICES. AND NOW, OF OUR FUTURE.

For 125 years, **MIDTEL** has continued to innovate and evolve to meet the needs of our growing communities and customers. Well into our 2nd century of great service, **MIDTEL** continues to lead the market with High Speed Fiber Internet, Wireless/WiFi, Cable TV, and Phone solutions. The **MIDTEL** name incorporates all of our products and services under one family umbrella.

Our history and roots run deep. Our same dedicated and growing staff of employees and 4th generation family leadership continues to help us innovate and grow. We look forward to providing reliable and robust services to all of our communities for another 100 years.

MIDTEL is still local, still community focused, and still the most reliable communications service provider in Schoharie County and beyond.

MIDTEL. Innovative Solutions Since 1897.

fiber. why?

FIBER TECHNOLOGY IS THE FUTURE.

MIDTEL continues to deploy state-of-the-art fiber optic network that will carry communication services using light waves instead of electricity. **Direct Fiber SPEED, powered by MIDTEL**, known as Fiber-to-the-Premise (FTTP), is the most advanced communication system available in the world today. **Direct Fiber SPEED** is incredibly efficient, allowing data to flow farther and faster than ever before.

YOUR DIRECT CONNECTION TO:

reliability

Withstands the elements.
No shared bandwidth.

shocking speed

Consistent and lightning fast.
Unlimited data.

more of everything

Connect more. Stream more.
On more devices.

security

Protected connections.
Harder for hackers.

room for growth

Growth for the future.
Advanced innovative design.

hosted phone system

Less expensive. Pay as you grow.
Impress your customers.
