

CommandIQ®

Quick Start Guide

Your Wi-Fi, Your Rules

Take control of your home Wi-Fi in minutes.

CommandIQ gives you one simple place to manage your network, devices, and security, right from your phone.

Step 1

Download the App

Search for CommandIQ in the Apple App Store or Google Play and install it.

Your phone becomes your Wi-Fi control center.

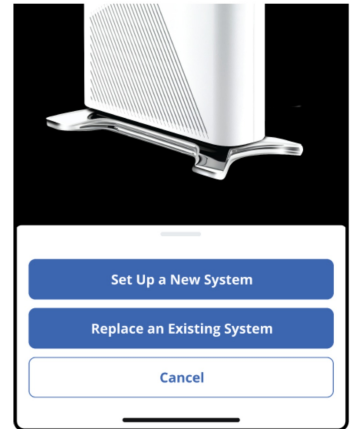

Step 3

Choose Your Setup Type

Select the option that fits your setup. The app will tailor the setup to your selection.

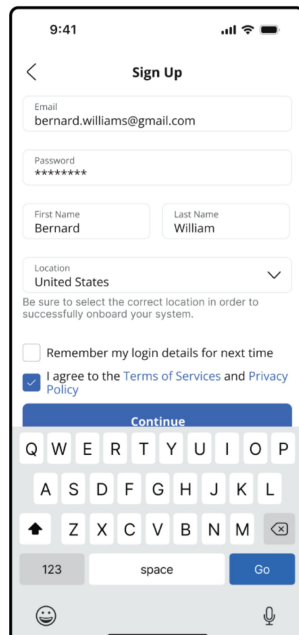

- New installation
- Replace existing equipment
- Add to an existing network

Step 2

Create Your Account

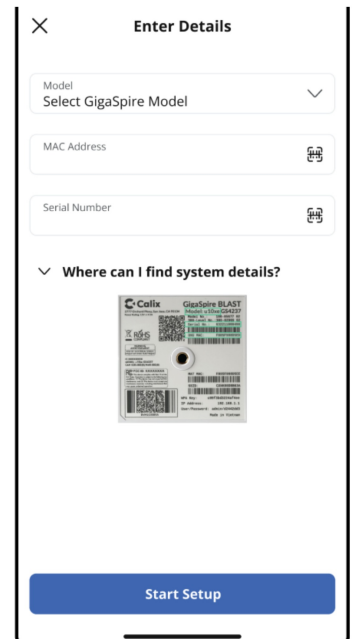

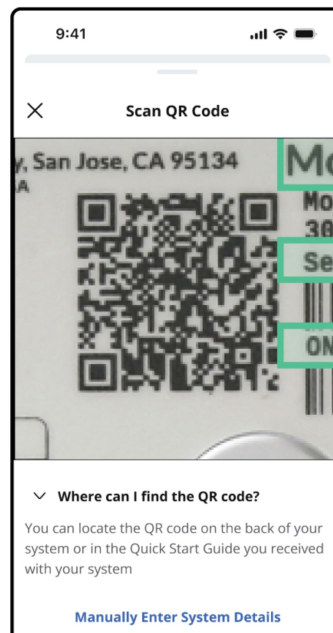

Enter your email, location, and password to sign in. This securely connects you to your home network.

Step 4

Connect Your System

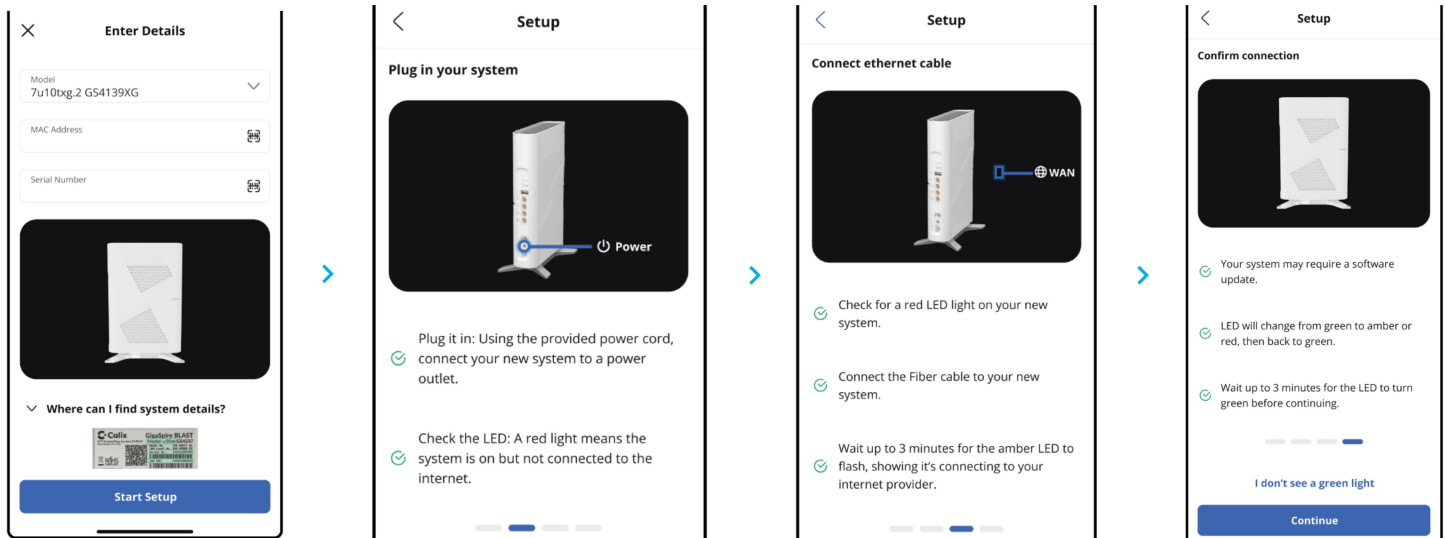

Scan the QR code on your router or enter details manually. This links your app directly to your Wi-Fi equipment so you can manage it.

Step 5 Follow Guided Setup

Complete the step-by-step instructions in the app. Everything is guided to ensure your network is set up correctly.

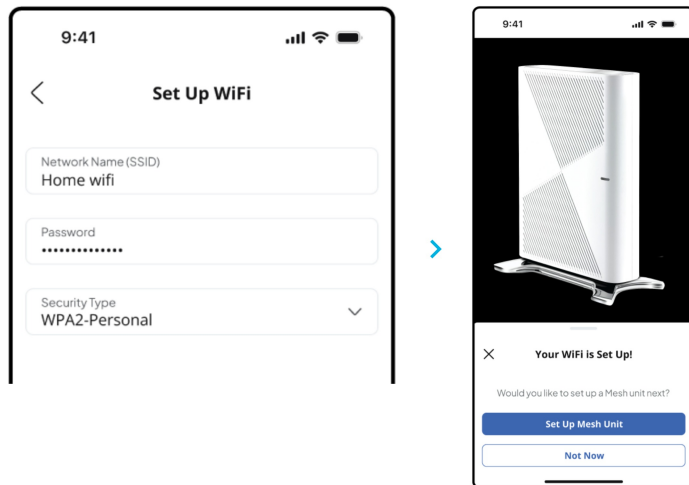

- Confirm your network name and password
- Connect your devices
- Finalize settings

Step 6 Customize Your Wi-Fi

Personalize your network:

- Update your Wi-Fi name and password
 - Add people and devices
 - Run a speed test
 - Turn on controls and security
- Now your Wi-Fi is set up to match your household.

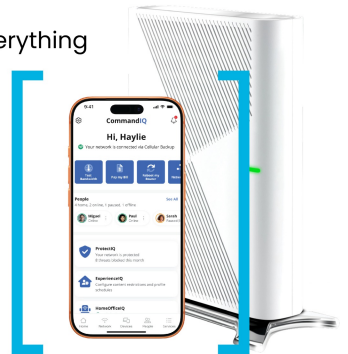

Your Home Dashboard

Once setup is complete, everything you need is in one place:

- See all connected devices
- Monitor network activity
- Access tools instantly

Simple visibility.
Complete control.

What You Can Do with CommandIQ

Quick Access to Everyday Tasks

Pay your bill, update Wi-Fi settings, and run speed tests directly from your home screen. Less searching. Faster actions.

Manage People & Devices

Create profiles, view connected devices, and identify unfamiliar connections. Always know what's on your network.

Control Internet Usage

Pause internet, set screen time limits, and filter unwanted content. Manage how and when your Wi-Fi is used.

Open the app and take control of your Wi-Fi

Protect Your Network

Built-in security helps protect all connected devices and block potential threats. Protection works in the background, no extra effort required.

Optimize Your Experience

Prioritize your Wi-Fi for what matters most with Work, Entertainment, and Gaming Modes. Your Wi-Fi adapts to what your household needs.

Why CommandIQ

Visibility > See everything on your network
Control > Manage devices instantly
Security > Protection across your home
Flexibility > Wi-Fi that adapts to your needs
