

Quick Start Guide: Apple TV

Check your email inbox for the
OMNIVIEW “Set Password” email.
(Don't forget to check your junk or spam if you don't see it in your primary inbox).

OMNIVIEW works on Apple TV 4K or Apple TV HD. If you need help identifying which Apple TV device you have, visit support.apple.com/kb/HT200008

If you are setting up your Apple TV for the first time...

All you need is:

- An Internet connection
- An Apple ID. If you don't have an Apple ID, you can create one for free here:
appleid.apple.com/account&page=create
- A TV or other display with an HDMI port
- An HDMI cable (Apple TV 4K requires an HDMI 2.0 or later compatible cable).

Apple TV devices that support OMNIVIEW:

- Apple TV HD 4th Generation (A1625)
- Apple TV 4K 1st Generation (A1842)
- Apple TV 4K 2nd Generation (A2169)

Apple has very helpful instructions to get your Apple TV up and going in no time:

- 4K / HD: support.apple.com/en-us/HT205358#appletv4kappletvhd

Install OMNIVIEW to your Apple TV from the App Store.

Now that your Apple TV is all set up, go to the App Store. The App Store app icon looks like this:

From within the App Store, search for OMNIVIEWTV. Highlight and select the app to begin downloading.

While an app is downloading or updating, its icon appears on the Home screen with a progress indicator. Once it's done downloading, select Open to launch and put in your account Username and Password.

Make sure you are connected to your MIDTEL provided internet.
OMNIVIEW needs to be connected to the internet provided to your home by MIDTEL in order to access your entire streaming line-up.
